D. O. No. 365 & 2311

Office of the
Sanitary Commissioner with the Government of Mysore,

Bangalore, 20 3 1911.

Dear Mr. Govinda Rao

With reference to the reminder to send up plans and estimates for a Vaccine Institute - It will be remembered that Dr. Srinivasa Rao was sent Home solely to qualify to be Superintendent or Director of the Mysore Public Health Institute - I take it the Government wish to stick to that idea. Accordingly Dr. Srinivasa Rao is engaged in

planning certain alterations in this Laboratory &c. &c. with a view to bringing it into shape for the above purpose. It includes of course a Section for Calf vaccination, and the whole thing will be ready in a few days. This procedure has become necessary owing to the original project or proposal of handing over Dr. Lehmann Laboratory for our purpose having apparently fallen through. The new assistant Dr. Iyanger - papers just sent

(365

up to government – would be in immediate charge of the Vaccine work – Of course under the Superintendent of the Director. Mrs. Abbay Naidu being relieved of this work would (I propose) become District Surgeon of Bangalore District in addition to charge of Lunatic Asylum. The present District Medical Officer would then be free for other duty. I will put up this all officially when I send up Dr. Sreenivasa Rao's proposals in a few days.

Sincerely yours.

J Mustard

8.) In regard to the allowance of Rs.200 for lecturing at the Central College, it has always been understood to be of the nature of a local allowance for a specific duty. (The note under the definition of "salary" in Article 24 of the Mysore Service Regulations does not seem to affect this view, as the note only refers to how such allowances are treated so long as they are actually drawn). Accordingly the present First Councillor (then Second Councillor) remarked on the 28th August 1908, in Sanitary File No.38 of 1908, as follows:-

"Dr. Srinivasa Rao's appointment as Lecturer in Biology will automatically cease with the introduction of the arrangements according to the New University Regulations."

The New Regulations have been introduced, Dr. Srinivasa Rao has been relieved of his lecturership, and therefore the allowance automatically ceases.

2. The order of 21st September 1908 deputing Dr. Srinivasa Rao to Europe distinctly says:-

"Formal orders regarding the combination of the two laboratories (i.e. the Chemical and Health laboratories) and the pay to be fixed for the officer in charge will be issued after Dr. Srinivasa Rao's return from his deputation."

I imagine that these orders would have issued ere this were it not for the proceedings in the case Palpu VS Srinivasa Rao, the result of which had naturally to be awaited. Now that the case has closed, it behoves us to take up the subject of combining the two laboratories and placing Dr. Srinivasa Rao in charge of them.

3. It is after this is done that the question of pay

NOTE—Contn. sheet.

GPB—55,000—27-4-09

Serial No.

will come in.

4. In regard to the pay for the combined office, Col. Smyth wrote in his letter No.G.97 of the 1st August 1908: "It appears to me that Rs.850 - 1,200 or at least Rs.1,000 would not be at all an extravagant emolument for the very important scientific responsibilities that would be his under the new arrangements". Apart from opinion and resolutions of Council, orders were reserved on this point. It will thus appear that the first thing to be done and that very quickly is to combine the two laboratories, the Health and the Chemical.

5. Proposals in this behalf are requested. The necessary orders may be drafted in consultation with the Senior Surgeon and sent up as quickly as possible.

To

C.S. Balasundaram Iyer Esq. B.A.,
Offg Secretary to the Govt of H.H. the
Maharaja of Mysore, Genl & Rev Deptts.
Bangalore.

Sir,

In continuation of my letter No.4576 dated 10th April 1911 from the Public Health Department, I have the honor to forward the accompanying copy of letter No. 234 dated 8-4-1911 from Dr. M. Srinivasa Rao and state that nothing is known in this office as to the 'promised' enhanced pay referred to. But it would be a most anomalous state of affairs that an officer should be made to suffer through going home and after much hard work and expense, taking a degree that indicates his enhanced powers for being useful to the State.

I have the honor to be,

Sir,

Your most obedient servant,

M.D.
Lt.Col.I.M.S.
Senior Surgeon, Mysore Government.

Forwarding Copy of letter No. 234 dated 8.4.11 from Dr. M. Srinivasa Rao re his enhanced pay.

Letter No.234 dated 8th April 1911 from Dr. M.Srinivasa Rao, to the Senior Surgeon, Mysore Government.

The Government Order directing that I should be relieved of College work deprives me of an income of Rs200/- every month. I have, therefore, the honour to request that you will kindly ask Government to pass immediately formal orders on the question of the enhanced pay promised to be given to me from the date of my return to India in January 1910. The proposals that have recently been made regarding the amalgamation of the Vaccine Institute with the Laboratory and the establishment of the School of Hygiene entail on me much additional work & responsibility. Not only was the deputation allowance given to me during the 15 months I was away from India fell much too short of the salary I was drawing, but the expense and worry I was put to in consequence of the lengthy legal proceedings with which I was harassed after my return to Bangalore have been greatly distressing me.

Letter No.338, dated, 15-5-1911, from Dr. M. Sreenivasa-Rao, Chemical Examiner and Bacteriologist to the Government of Mysore, to the Senior Surgeon, Mysore Government, Bangalore.

When the Government organised a new Public Health Department in the State in the latter half of 1907, they also sanctioned the establishment of a separate Public Health Laboratory directly under the control of the then Deputy Sanitary Commissioner. As this arrangement did not commend itself to you, you proposed that the Public Health Laboratory should be amalgamated with the Chemical Laboratory and Bacteriological Institute and placed under my sole charge. With this view you kindly obtained the sanction of Government for my deputation to Europe to enable me to take the D.P.H. The Government, in the unpublished portion of Proceedings No.3020-4-36-08-2 Sany dated, 21st September 1908, fixed my pay at Rs.1000/- a month and promised to pass, after my return, formal orders on the amalgamation of the Laboratories and on the enhanced pay to be given to me. Since my return from deputation in January 1910, I have been practically doing all the Public Health Laboratory work as well, there being no such separate Laboratory, or other Officer to perform the duties thereof. My last year's report will show that the major portion of the Chemical and Bacteriological analyses relates to the Public Health work. Although there have been no formal orders passed, the amalgamation of the Laboratories contemplated by Government has virtually taken place, and I am therefore justly entitled to the pay of Rs.1000/- from the date of my return to India. The events that have taken place since then and that have been only recently concluded, are such as I did not bargain for, and have now become matters of history. In my letter No.585 dated 12-3-1910, I represented my claims for the enhanced pay and did not press further, pending the disposal of the charges brought against me Since His Highness the Maharaja has himself been pleased to sanction the increase of my pay, and as the charges brought against me have been proved to be unfounded, I have no doubt that if you

will kindly lay my claims before Government, they will not hesitate to do me justice. As you are going away soon, I request that you will be pleased to forward my letter to Government with your strong support.

Offg Secretary to the Govt of H.H. the
Maharaja of Mysore, Genl & Rev Deptts.
Bangalore.

Sir,

With reference to your No. 9410/Sany.132-10-2 dated 16th May 1911, I have the honor to say that the combining of the Public Health Laboratory & the Laboratory of the Chemical Examiner, is a very simple matter. With the new material Dr. M. Sreenivasa Rao has got from England, the Laboratory is complete except for the Refrigerating room and this is to be erected as a part of the Vaccine factory. Dr. Sreenivasa Rao when placed in charge of the combined Laboratories, which will form an integral part of the Public Health Institute, will be called Superintendent of the Public Health Institute, (which will include Bacteriology), and Chemical Examiner to Government.

2. In everything connected with the former, he will be under the orders of the Sanitary Commissioner and all correspondence will be with that officer; while in matters connected with Forensic Medicine, he will be under the orders of the Senior Surgeon & correspondence will be with that officer.

3. As regards staff for the combined laboratories and Institute, the present Laboratory Assistant will of course be required, but a Deputy Superintendent will also be necessary

SUBJECTS.

Re Combination of the Public Health Laboratory and the Laboratory of the Chemical Examiner,

necessary - the post for which I have recommended Mr. Krishnasawmy Iyengar, who has recently returned from England.

4. As for the staff of the Vaccine factory, those at present in the existing Vaccine Institute will suffice.

5. So much for the Laboratories & Vaccine factory.

6. But essential features of the new Institution should be a School of Hygiene, a Museum & Library. The plans for these are under construction, as well as those for the Vaccine factory, by the Sanitary Engineer.

7. Teaching in the School, the preparation and distribution of vaccine & entire charge of the Vaccine factory & everything connected therewith; the care of the Library and Museum; all analyses for forensic purposes, as well as for those of public health, all Bacteriological investigations as well as all reports for clinical purposes, such as have been hitherto required by the various public hospitals, shall form the routine duties of the Superintendent & his Deputy. Any other work connected with Public Health & Forensic Medicine which may be required of them in their position, but which may not be enumerated above, may at any time be required of them. The Superintendent shall allot such duties to his Deputy as he may think right, always subject to the approval of the Sanitary Commissioner.

I have the honor to be,

Sir,

Your most obedient servant,

M.D.
Lt.Col.I.M.S.
Senior Surgeon, Mysore Government.

Letter No.433 dated 19th June 1911 from Dr. M.Srinivasa Rao, Chemical Examiner, M.G., to the Senior Surgeon, M.G.

I have the honor to invite your kind attention to my letter No.338 dated 15-5-1911 and to request that the Government may be urged to pass formal orders on the subject of the enhanced pay promised to be given to me from the date of my return to India after deputation. Whatever might have been the reasons for not having passed the orders earlier, there seems to be no apparent necessity for further delay. I was relieved of my College work on the 20th of April last and have eversince been deprived of the Lectureship allowance of Rs 200 that I was getting, though the other Lecturers and Professors in the College have been enjoying their salaries during the vacation. This deprivation of my allowance without giving me the increased pay I am entitled to has put me to serious loss and great anxiety. Since my return to Bangalore in January 1910 I have been doing all the Public Health Laboratory work. Though, therefore, the amalgamation of the Public Health Laboratory with the Chemical Laboratory and Bacteriological Institute has practically taken place, I have not received the increase of pay promised to me. I therefore request that Government will be pleased to do justice to me at an early date.
